**The mission of the college** is to provide a transformative education that enables students to maximize their potential to become creative, independent thinkers and lifelong learners who adapt and contribute ethically to evolving national and international societies.

The College of Liberal Arts impacts every student who matriculates through Norfolk State University. In addition to nine undergraduate academic degree programs and four graduate academic degree programs, the college serves as a service area for students taking introductory courses in the general education core. Exposure to courses in the areas of English, Music, Fine Arts, History, Sociology, and Psychology affords students many opportunities to appreciate and understand their role in a global society.

Within the context of the University's strategic plan, the overall goals of the College of Liberal Arts are to:

- Provide students with a liberating education that is conducive to life-long learning.
- Impart knowledge, strengthen communicative and quantitative abilities, and enhance research and inquiry skills in the various subject matter areas.
- Develop habits of independent thought and critical thinking.
- Promote attitudes of understanding, respect, and tolerance for one's own culture and the cultures of other peoples.
- Engender in students an appreciation of the moral and ethical components of life.
- Define educational standards that address the changing paradigms and diverse needs of students in a changing global society.
- Provide highly qualified graduates for the global workforce.

Contribute to the social consciousness, civic engagement, and cultural enrichment of the community through the provision of programs, exhibits and workshops in the arts, humanities, and social sciences.
