Program Description
The Master of Arts/ Master of Fine Arts Program in Visual Studies, offered at Norfolk State University, is a unique program which provides highly motivated and mature students with an intensive, multifaceted educational experience in the visual arts. The Master of Arts program is a one and one half year degree program; while the Master of Fine Arts in Visual Studies (M.F.A.), the terminal professional degree in Fine Arts, is usually completed in two and one half years or more depending on the candidate's academic pace. Study for the M.F.A. culminates in a solo graduate exhibition, written thesis documentation, and an oral defense of the candidate's work.

Path to the Degree Completion
At the end of the first year of study (12-18) credit hours, a mandatory General Review is facilitated by the graduate faculty. Based on the result of the review process, the faculty determines whether the student will continue in the graduate program or is terminated from the program. At the end of the first year of study, the graduate faculty will conduct a Continuance and Candidacy Review. Based on the result of the Continuance and Candidacy Review process, the faculty will determine whether the student continues in the graduate program as a degree candidate or is terminated from the program. If continuance is recommended, candidacy for the Master of Arts or the Master of Fine Arts degree will be indicated. The faculty’s decision will be submitted in written form to the student, signed by the student’s advisory committee and the program coordinator.

Final degree requirements include the following:

• A solo exhibition of work completed during the program. This exhibition is presented to the public in a professional art venue in the Hampton Roads area. The student is responsible for securing the venue, selecting the work, hanging the show, creating exhibition announcements and all publicity as well as organizing a reception.
• The student writes a thesis based on his/her area of inquiry. This comprehensive work includes a literary review and visual documentation of work color photographs of the works, or a visual format best suited to the nature of the work. This becomes a permanent record of the student’s work while matriculating in the program.
• The graduate committee conduct an oral examination covering issues raised in the thesis document and thesis exhibition.

M.A. in Visual Studies
Candidates for the Master of Arts degree in Visual Studies will complete 33 credit hours divided in the following manner:
Students must earn at least a B (3.00) in all courses used to fulfill the graduate class requirements.

**Letter grades of "I" in Studio Courses, Seminars, Topics Courses, and Art History Courses**

At the end of the semester, a professor of the Visual Studies Program may assign a grade of "I" (Incomplete) when the instructor deems such a grade to be appropriate and believes that circumstances warrant an extension of the student’s coursework. Such a decision is completely at the discretion of the individual professor, and in this regard the professor’s decision is final.

If an "I" grade is assigned, the professor will set the conditions for its removal in writing. The student is then entirely responsible for its timely removal. In order to receive a passing grade, the student must complete requirements for the removal by the date established with professor of no later than the end of the next academic year. Otherwise, the "I" grade will be converted to a failing grade by the instructor or the University Registrar.
