GENERAL EDUCATION CORE PROGRAM

The general education core at Norfolk State University provides the foundation for the University’s mission to develop in students the knowledge, qualities, and attitudes necessary to become productive citizens who contribute to a globally and rapidly changing society. Such citizens are educated persons. They are lifelong learners who communicate effectively and appreciate diverse manifestations of different cultures, recognize and exercise their responsibility to contribute to the growth of society, use technology appropriately to enhance their personal and professional lives, and possess a rational open-mindedness that leads to analytical and critical patterns of thought.
