

# CERTIFICATE IN CYBERPSYCHOLOGY

---

The Certificate in CyberPsychology program is designed for postbaccalaureates seeking advanced education in the applied interdisciplinary study of cyberpsychology. This certificate is appropriate for individuals seeking a broad overview of the history and current state of cyberpsychological study without having to formally engage in scientific research. All required coursework overlaps with curriculum for the M.S. CyberPsychology degree program, offering Certificate students the opportunity to survey multiple areas of cyberpsychology and then easily transition into graduate level study.

## Required Foundational Core Courses:
